3. Marina District Community Events Briefing

MEETING:

1. Selection of Committee Chair: Vic Pennington is the new Committee Chair for 2014-2015.
2. Approval of Minutes from 12/5/2013 meeting: Unanimously approved.
3. Marina District Community Events Briefing: Tony Piasecki handed out a draft resolution that outlined the proposed agreement between the City of Des Moines and Destination Des Moines. The agreement specifies the responsibilities assumed by Destination Des Moines and identifies the in-kind services that will be provided by the City to support these events which include the *Waterland Parade* and *Fireworks Over Des Moines*.

Committee gave approval to take the Resolution to Council at the February 13, 2014 meeting.
4. Transportation Gateway – S 216th St Segment 1, Right-of-Way: Brandon Carver introduced Len Madsen, Special Projects Consultant on the Transportation Gateway Project who gave a brief history of the project to date. Len then asked for the Committee's consideration to shift the limits between Segment 1-A and Segment 1-B to Pacific Highway. The project right lane transition east of Pacific Highway to 29th Avenue South will be deferred to Segment 1-B where the lane is planned to be continuous. By making the proposed shift in limits, it is estimated that the right-of-way and

construction costs of Segment 1-A would be contained or reduced by \$600K to \$1.2 million.

Staff will seek a proposal from the City's consulting engineer to adjust the plans, proceed with the right-of-way acquisition and seek grant funding for right-of-way and construction. Right-of-way strategies will be to complete acquisition on the north side of S 216th Street, west of SR99, then progress on the south side as budget and funding permit.

A motion to approve a scope of work to adjust the project limits and proceed with right-of-way acquisition will be submitted to the full Council for consideration.

5. LED Street Lighting Policy Discussion: Brandon Carver updated the Committee with the progress of the LED change out program with PSE. In 2013, 345 - 100watt lights were converted to 54watt LED lights for an annual savings of \$15,000. Another 345 lights are planned for conversion in 2014 followed by 331 light conversions in 2015 for a total of 1,021 lights converted to LED. That leaves a remaining group of 634 – other watt lights that would be converted at a higher rate due to the larger wattage lights.

Staff will consult with PSE and bring back financial information for this last group of conversions at a future Committee meeting.

6. Potential State & County Transportation Funding Discussion: Brandon started the discussion by giving a brief history of transportation funding then went over the handout that outlined King County's Transportation District. The outline included the proposed countywide TBD; revenue sources; distribution and uses of revenue; and the average household impact. A more detailed discussion was planned at the February 13, 2014 Des Moines Transportation Benefit District meeting.

Re: Volunteer Program Update

In October of 2013 the position of Volunteer Coordinator was re-assigned to the Professional Standards Sergeant. For several years the Volunteer Coordinator was assigned to a Community Service Officer. I have met with the Support Services Commander and we have identified several tasks and projects that could potentially be assigned to a volunteer.

In November of 2013 a new volunteer was hired and given the title of Volunteer Lead. The initial task of this position is to research how other law enforcement agencies are managing their volunteer programs. Special emphasis is being given to what projects or programs other agencies are having their volunteers work on and what training is being provided to volunteers. The initial inquiries have been made and the Volunteer Lead is in the process of generating a report that will assist us in identifying specific projects and tasks that can be performed by volunteers.

Once we have identified specific tasks and programs we would like our volunteers to perform, we will actively recruit new volunteers that have skills directly related to these tasks and programs. Recruiting will be done through the use of the City Currents newsletter, the City cable TV channel, distribution of brochures, the local media and the use of social media sites such as Facebook and Twitter.

Currently we have a total of four (4) volunteers. They are doing mostly administrative type work related to the alarm program. One volunteer also assists with filing in the evidence room. Short term goals of the Volunteer Program are to hire new volunteers to assist with document scanning and assisting the records unit by answering the phone and greeting customers at the lobby window. We are also hoping to assign a few more volunteers to the south station so it can be open more often.

Re: Business Watch Update

In early January 2014, I spoke with CSO Batterman about our desire to create a business watch program throughout our City. On 1/29/14, I met with Sgt. Wieland and CSO Batterman to discuss this in more detail and form a plan of action. CSO Batterman had obviously spent a significant amount of time thinking about this program, conducting research, and putting together a written plan. He presented Sgt. Wieland and me his plan. We discussed each step in detail and offered a few suggestions and additions to the plan. We agreed the initial focus would be on businesses on Pacific Highway South, from the 21400 block to Kent Des Moines Road. I asked CSO Batterman to provide me a written update on his progress by 2/12/14.

I have received and reviewed CSO Batterman's report on his progress with the program. I have attached his report to this memo for your review.

3. At the time the additional nuisance activity occurred, the violation citation had not resulted in a hearing examiner's order.

C. Permitting a chronic nuisance is a misdemeanor.

D. Each nuisance activity that is allowed on the property as described in this section shall constitute a separate offense.

E. It shall be a defense to permitting a chronic nuisance if the person in charge of the property can show that he/she is in compliance with a written plan of action that he/she has entered into with the city to abate the nuisance, as described in Section 9.64.070.

9.64.070 Diversion.

If satisfied of the good faith of the person in charge of the property, the city attorney, in coordination with the chief of police, may enter into a stipulated agreement and/or order for abatement of nuisance activities with the person in charge of the property.
